## Professional Certification Program SPECIAL PROJECT

### Contemplations for Doing Your Special Project:

The Special Project for completing ***Sacred Centers Certification*** may be the most important learning that you do. This is your chance to really incorporate the material into your thinking – to make it your own, to create your contribution, and to apply what you have learned in an original way. The following guidelines may help you think through the creation of your Special Project. ***Sacred Centers*** faculty is then ready to help you refine it appropriately.

### Things to consider:

1. Look at where your learning has been most alive for you.
2. In what arena are you inspired to apply your learning?
3. Where are you drawn to deepen your learning?
4. How does what you have learned in the program fit in with your other areas of expertise?
5. How will you make the information your own?
6. How do you impart this to others? What form?
7. What would make the information come alive and useful?
8. What really wants to come through you as your unique expression of this material?
